Summary / Statement

Songshi Dou is a second-year Ph.D. candidate at the HKU. His research mainly focuses on computer and communication networking, including low Earth orbit (LEO) satellite networks, software-defined networking (SDN), and traffic engineering (TE). He has published 31 peer-reviewed research papers, including JSAC, ToN, TCOM, INFOCOM, WWW, ICDCS, and IWQoS, and owned 5 Chinese patents.

Education

The University of Hong Kong (HKU), Pokfulam, Hong Kong 2023 - 2027 (expc.)

Ph.D. Candidate in Electrical and Electronic Engineering
Field of Study: Computer and Communication Networking
Supervisors: Prof. Lawrence K. Yeung and Prof. Xianhao Chen

Beijing Institute of Technology (BIT), Beijing, China 2019 - 2022

M.E. in Control Engineering, June 2022
Field of Study: Computer Networking
Supervisor: Prof. Zehua Guo
Dissertation: Maintaining the Path Programmability in Software-Defined Wide Area Networks

Outstanding Master's Thesis of Chinese Institute of Electronics

North China Electric Power University (NCEPU), Beijing, China 2015 - 2019

B.E. in Automation, June 2019

Publications

([†]Equal contribution, *Corresponding author)

Journal & Magazine Papers
